

GENIEUX HYBRID ENERGY PRIVATE LIMITED

GENIEUX HYBRID ENERGY PRIVATE LIMITED aim to leverage experience and networking in domestic market in India and is sourcing products and services to companies across globe. Our company is regarded as one of the reliable and strategic exporters, supplier of a huge assortment of Industrial Products.

We are one of the strategic sourcing company for Government and public institutions in Africa, Kuwait and other parts of the world providing goods on DDP basis at their warehouses.

Our experience and precise planning provide end to end solution including logistic and shipment for delivering of goods at our client's doorstep without delays and minimizing the risk of project complications.

We are experienced and capable to provide tailor made solutions, this includes market research, identifying suppliers, developing a product, etc.

Our In-house team is capable and experienced for vendor evaluation, conducting FAT (Factory Acceptance Test) and ensuring a quality product. For third party inspections we have coordinated with Government authorities and other institutes.

GENIEUX HYBRID ENERGY PRIVATE LIMITED has already partnered with few overseas clients and is regarded as an extension of its client's purchasing office.
